Half the time. 10 seconds. They saw 20 products. That's the kill zone — and no standard grid fixes it. Vrrrt Cube does. Shoppers see 90 products in 25 seconds — up to 540 in 3 minutes. An interactive 3D cube, 6 faces, drill-down on each, quick-view and in-cube search. Loads in under 1 second. Drop-in install on any Shopify theme. The only Shopify app built specifically to get shoppers past the 30-second kill zone.
